General Practice Gold Coast Chronic Disease Prevention Service Directory

Dear Service Provider,

Welcome to the General Practice Gold Coast Chronic Disease Prevention Service Directory—a free directory which will promote your service and provide easy access to details about your service to general practices and the public.

General Practice Gold Coast (GPGC) is committed to assisting local General Practitioners (GPs) to be proactive in minimising and preventing the effects of chronic diseases such as diabetes, coronary heart disease, chronic obstructive airways disease, kidney disease and depression.

GPGC is developing an electronic directory of services that promotes health and well-being on the Gold Coast. Enclosed you will find a registration form to complete and send back to us. The information submitted will be used as your service's entry in the directory. It will be made available on our website www.gpgc.com.au, for access by GPs and practice staff and parts of your entry will be accessible to the general public. We have indicated the sections which won't be made available to the public.

Completing the form

The fields in **BLUE** are the mandatory fields. The more information you provide for your listing the more useful it will be to general practice. Should you operate from more than one location, please complete separate forms leaving common areas blank.

We intend listing the services under 2 headings:

- 1). the type of service, eg support service, community service and/or health service, and
- 2). under a variety of key word headings, such as physical activity, diabetic educator, smoking cessation support, etc.

There are 2 ways to complete the form- Electronically then email

Print out, complete then post or fax

If you would like to receive the registration form electronically or have any questions about our Chronic Disease Prevention Service Directory, please call Debbie Buckley on 0412 173 033 or email debbieb@gpgc.com.au

Thank you for your support.
